

## TICKET RESTAURANT CARD

### What is it?

Ticket Restaurant is a pre-loaded contactless Mastercard, that is programmed for use only in food outlets. This may include sandwich shops, fast food restaurants all the way up to full service restaurants. Any food establishment that accepts Mastercard should accept your Ticket Restaurant card.

Each member of your group will be provided with a named card as part of their travel programme and a load value of £60.00 (approx. US\$75.00).

This is primarily to use on the three evenings where dinner is not scheduled in your hotel (i.e. dinner at leisure). But it can also be used for lunches and snacks throughout the week.

### How do I activate it?

Call **0333 400 2288**, select the activation option, enter your long card number **followed by #** when prompted and then the activation code (which we will have written on the envelope) **followed by #**.

The card will be activated and the PIN read out. Make sure you write your **PIN** number somewhere safe!

### How do I use it?

It works exactly as a normal payment card, so when you go to pay for your meal, simply inform the provider how much you want to charge to the card and you either tap the payment console (contactless) or insert the card and use your pin number.

Towards the end of the week you will need to know the balance you have on the card, as if you try and pay an amount that exceeds your balance, your payment will be declined.

You can find your balance by going to any ATM, insert the card, use your PIN number and it will give you the balance.

If you spend over the value of the card, you may use cash or a separate credit card to pay the remaining balance.

Ticket Restaurant is compatible with Apple Pay and Google Pay for safe and fast digital wallet payments.
